THREE

Dr. Dan Gubler
Chief Scientific Officer
Three International

June 2, 2026

Re: Three International Manufacturing Philosophy and Certifications

At Three International, our mission is to deliver world-class wellness solutions through a disciplined, science-driven approach rooted in molecular precision. By combining proprietary molecular curation with advanced cellular absorption technologies, we design products that are not only innovative—but biologically effective—so you can live a life of greater health and purpose.

The following pages outline the certifications of the contract manufacturing partners we entrust to bring our formulations to life: CSB Nutrition Corporation, Elevate Health Sciences, Innovative Labs, Artisan Labs, and LaCore Nutraceuticals. Each of these organizations has decades of experience and operates under globally recognized quality systems. Their certifications reflect strict adherence to current Good Manufacturing Practices (cGMP), ensuring that every Three product is produced with exceptional consistency, safety, and integrity.

Our commitment to quality begins long before manufacturing. Every ingredient used in a Three formulation is subject to comprehensive source qualification and control. This includes identity verification, purity assessment, and potency validation to ensure that each batch consistently delivers the precise molecular profile required for optimal efficacy. Only ingredients that meet our stringent specifications are approved for use.

Our formulations undergo extensive research and development led by Ph.D.-level scientists. Each product is first developed and optimized at the laboratory scale, followed by rigorous pilot-scale testing. This critical step ensures that the formulation maintains its structural integrity, bioactive composition, and performance characteristics when scaled to full production. Advanced analytical techniques—including content uniformity testing, stability assessments, and molecular profiling—are employed to confirm that every production batch matches the original design with exacting precision.

During manufacturing, we maintain a strict formulation philosophy: no unnecessary fillers, binders, or excipients. Every component in a Three product serves a functional, science-backed purpose. This ensures that what you consume is both intentional and effective—delivering meaningful biological signals at the cellular level.

Following production, each batch undergoes a comprehensive Quality Assurance and Quality Control (QA/QC) process. This includes multi-stage in-process testing, finished product verification, and independent third-party analysis. Only after a product has met all predefined specifications for identity, purity, potency, and safety is it approved for release.

THREE

This end-to-end system—spanning raw material sourcing, formulation science, scale-up validation, precision manufacturing, and final quality verification—ensures that every Three product meets the highest standards in the nutritional supplement industry.

Thank you for placing your trust in Three International and for allowing us to be part of your health and wellness journey.

Be well,

Dan Gubler

Subject: Issue of GMP certificate MI-2022-CE-15409-1

Dear Charie Draper,

Please find enclosed the GMP certificate for your manufacturing premises.

The certificate remains valid only if re-inspections are conducted when scheduled by the Therapeutic Goods Administration. The inspection frequency is not a reflection of the expiry date shown on the certificate but is consistent with the re-inspection frequency applicable to Australian manufacturers of the same class of products.

The Therapeutic Goods Administration will contact the relevant sponsor/s to arrange the re-inspection of your facility.

Yours sincerely,

Manufacturing Site Address:

3421 Sierra Vista Way
Provo Utah 84606
United States of America

The Therapeutic Goods Administration, the Competent Authority of Australia, confirms that this manufacturer has been inspected following section/s 25(1)(g), 26(1)(g) and/or 26A(3) of the *Therapeutic Goods Act 1989* in connection with marketing authorisation/s listing manufacturers located outside Australia.

From the knowledge gained during inspection of this manufacturer, the latest of which was conducted on 4 to 7 March 2024, it is considered that the manufacturer complies with the Good Manufacturing Practice requirements of the PIC/S Guide to Good Manufacturing Practice for Medicinal Products –1 May 2021.

This certificate reflects the status of the manufacturing site at the time of the inspection noted above. This certificate remains valid until the expiry date provided that re-inspections are conducted as determined by the Therapeutic Goods Administration as the issuing Authority. This certificate should not be relied upon to reflect the compliance status after the expiry date.

Issue Date: 27 September 2024 **Expiry Date:** 7 September 2025

This certificate remains valid only if re-inspections are conducted when scheduled by the Therapeutic Goods Administration.
The authenticity of this certificate may be verified with the Therapeutic Goods Administration as the issuing authority.

CERTIFICATE OF CONFORMANCE

PSC®
Quality, Compliance, Excellence

Certificate Number: CDOC-PRO-2397
Date of Issue: April 17, 2026
Date of Expiry: April 17, 2027
Audit Date(s): April 8-9, 2026

Issued To:
LACORE NUTRACEUTICALS, INC.
1801 S Industrial Park
Van Alstyne, TX 75495

Overall GMP Compliance Rating:
Generally Compliant with Observations
Score: 80.5%
Risk Classification: Low

This certificate affirms that the facility has been evaluated against U.S. dietary supplement GMP requirements and demonstrates a level of compliance consistent with the conclusion stated above at the time of inspection. This certificate may be used to support regulatory or commercial documentation, including applications such as state-issued GMP statements or Certificates of Free Sale, where applicable.

Scope of Assessment:
This certificate confirms that the above-named facility has undergone an independent Good Manufacturing Practice (GMP) audit conducted by PSC Biotech in accordance with applicable requirements of **21 CFR Part 111 – Current Good Manufacturing Practice for Dietary Supplements**.

The audit scope included, but was not limited to:

- Quality Management Systems
- Personnel and Training
- Facilities and Equipment
- Production and Process Controls
- Laboratory Controls
- Material Control and Warehousing
- Packaging and Labeling Operations
- Documentation and Recordkeeping
- Deviations, Investigations, and CAPA Systems

Statement of Conformance:
Based on the audit performed and evidence reviewed, the Company is considered to be in compliance with observations with applicable requirements of 21 CFR Part 111, as assessed at the time of the audit.

Authorized By:

Adrian Rodriguez
MBA, CPhT, CMQ/OE
Global Quality Auditor & Key Account Manager
PSC Biotech®

Important Notice & Limitations:
This certificate is issued based on a third-party audit conducted by PSC Biotech and reflects conditions observed at the time of the audit only. This document does not constitute certification, approval, or endorsement by the U.S. Food and Drug Administration (FDA) or any regulatory authority. GMP compliance is an ongoing responsibility of the facility and may change over time. This certificate should be used in conjunction with the full GMP audit report and supporting documentation.
